
Welcome

Ibrahim Matta

<http://www.cs.bu.edu/groups/wing>

**4th Workshop on Applications and Services in Wireless Networks @ Boston University
August 8-11, 2004**

First time in the US

- Previous events in France and Switzerland
- Submissions from Europe, US, Middle & Far East
 - 3 or more reviews for most papers (at least 2)
 - Selected papers organized in 8 sessions
 - Resource Discovery and Management (Wendi Heinzelman)
 - Security and Accounting (Peter Langendoerfer)
 - Performance Modeling and Evaluation (Azer Bestavros)
 - Scheduling and Clustering (Victor Leung)
 - Overlay and P2P Services (John Byers)
 - Multimedia Transport (Joseph Pasquale)
 - Routing and Mobility (Hossam Afifi)
 - Distributed and Middleware Services (Olaf Droegehorn)

And more ...

- ❑ Showstoppers for Sensors
 - *Andrew Campbell, Columbia University*
- ❑ Sensor Networks for Emergency Medical Care
 - *Matt Welsh, Harvard University*
- ❑ **Panel:** Advances in Wireless Networks, Applications and Services: Current Status, Future Trends and Challenges
 - *Djamal Zeghlache, INT, France*
- ❑ Future of All-IP Broadband Wireless Mobile Networks
 - *Firas AbiNassif, Airvana, Inc.*

And some fun too ...

□ Dinner Cruise

- see Ellen Grady at registration desk

Thank You!

ASWN'04 web site at
<http://csr.bu.edu/aswn2004/>

- All attendees, authors, speakers, reviewers, session chairs
- Nada Golmie, NIST (post-workshop journal issue)
- Local Organization Team:
 - Ellen Grady (registration/hotel/...)
 - Paul Stauffer (systems staff)
 - Mina Guirguis (web-based paper management)
 - Georgios Smaragdakis (CD proceedings)
 - Vijay Erramilli (Internet access)
 - Nahur Fonseca (publication of tutorials)
 - Hany Morcos (student posters)
 - Kanishka Gupta, Karim Mattar, Niky Riga, Yuting Zhang, Adam Bradley, Liying Tang (registration desk)
